

An important update on CNWL sexual health services in Camden, Islington, Haringey, Barnet and Surrey.

To help keep everyone safe at the moment, our sexual health clinics are running a reduced service.

If you are worried or think you need to come in to the clinic, please call or text **077 38 26 13 23** or **020 33 17 52 52**

We will advise you what to do.

We can send some medication or tablets to your home address so you can stay at home.

Please do not come to a clinic if you do not have an appointment.

We will tell you if you need to come in.

For general advice and support please call or text **077 38 26 13 23**
