

# Wikis

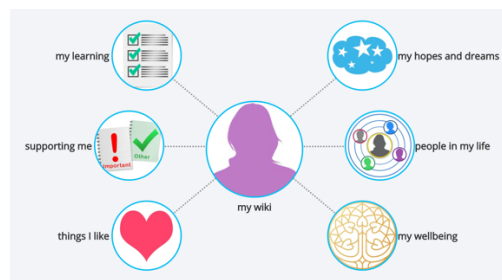

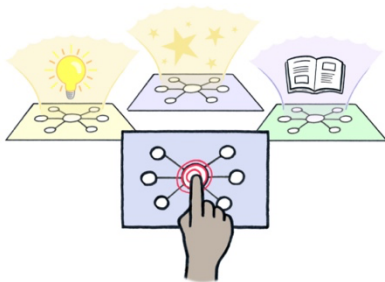

## A RIX Wiki is a digital About Me

Wikis can be used to create person centred plans by using pictures, words, video and sound to capture the voice, skills, aspirations and needs of the individual

Wikis can be small or big and can also hold attachments, links and maps

In web-speak, Wikis are simple, accessible, secure and easy-to-build personal websites

Wikis are browser-based (i.e. not yet an app) and work well on tablets and laptops - smartphone use is possible but a bit fiddly!

A Wiki can have an **Owner** and a **Keeper**

Both the Owner and the Keeper can edit the Wiki

The Owner is the individual themselves, whether or not they have the skills to add content to their Wiki

The Keeper could be

- a parent or family member
- a teacher or tutor
- a support worker or PA
- a keyworker or manager

Wikis are private by default

Owners and Keepers can share Wiki content, some or all of it, by using the **Invite** feature in edit mode

This generates an email from RIX with a link for the invitee to view a read only version of the Wiki
